Membership fee / Automatic collection

The fee is €84,00 in the academic year 2018/2019 and will each year increase by € 1,00. The half-year membership fee is €50,00 in the year 2018/2019.

The membership fee can only be paid through an automatic collection. The membership fee is always collected in October after receiving the Student depreciated. The treasurer will always notify this in advance.

Also, the automatic collection is used throughout the year to pay for activities, contest participation, clothing etc. The treasurer will always send you an invoice to notify what amount of money he/she is going collect from your account.

On the registration form you will find a section where you can give permission for the automatic collection. Obviously, the board will see to it that this is carefully handled.
